

AMENDMENT

IN THE SPECIFICATION

Please amend the 9th paragraph in page 5 of the original specification as the following. The added feature of " " is illustrated in Fig. 10 about the elements 20b, 26b and 21b, it is illustrated that the 20b (or 26b and 21b) has a shape like "8".

The retainer device 20b has a ring-shaped elastic element 21b having a twisted protruded portion 26b inserted through the through hole 13b of the main body 10b. Thus, the ring shaped elastic element 21b and the twisted protruded portion 26b having a shape like "8".
